Recruiting Volunteers

The University as a Partner

The community and the university have a lot to learn from and share with each other. Connect with university faculty to find expertise, or recruit University of Wisconsin-Madison students to volunteer at your organization or event. Share your mission and opportunities with students at public service fairs and reserve a room on campus for student volunteer training or information sessions.

We want to be an open door for the community. Get in touch with us today to begin a partnership.
